

ZAPATA NEARS CAPITAL GATES.

Fighting Going on Within Few Miles of Mexico City.

Fear Is Expressed Huerta May Be Assassinated.

Federal Garrison at Cordoba Gets Reinforcement.

BY GEORGE ADDISON HUGHES.

VERA CRUZ, May 21.—Huerta will die at the hands of an assassin before the mediation commission completes its labors. The Zapatistas have engaged Huerta's forces fifteen miles from Mexico City and are fighting on going on there for three days. Joseph Maria Lozano has resigned the ministry of communications and other cabinet members have threatened to take the same action.

Lozano is the man who, with Huerta's son, led the anti-American outbreak in the capital. The Mexican newspaper, El Pais, has been suppressed in Mexico City, and the owners and editors have been jailed. The publication of the ridiculous story that the Hawaiian Steamship Company liners no longer dock at the Mexican east coast ports, but go through the Panama Canal with their cargoes caused the suppression. Eight hundred Federals have been withdrawn from the immediate vicinity of Vera Cruz and have fallen back to Cordoba. They passed through Soledad last night.

Soledad is practically unguarded, the big Federal post that was there having joined the Federal government troops at Cordoba. Fifteen hundred Federals are in Cordoba. Two hundred refugees left the capital last night for Puerto Mexico. The refugees from Mexico City brought the foregoing news and the prediction was made today by one of Mexico's biggest railroad magnates, and Huerta's personal friend, forecasting the dictator's end.

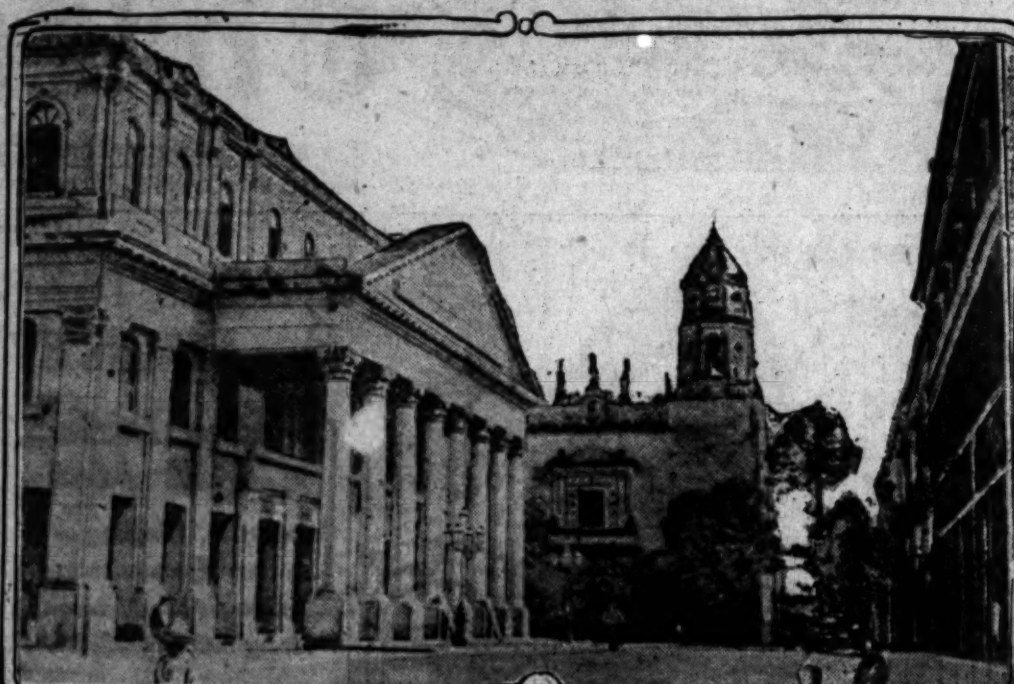

LIST OF REFUGEES.

Among the refugees are C. C. Spaulding, who formerly owned the Vendome Hotel. He has been in the restaurant business in Mexico City two years. Other refugees of the party have been in business in Mexico City for two years. Among the party of twenty odd are Mrs. Mack Campbell, baby and husband of No. 75 Victor avenue, Toronto, Can. They say Fred J. Miller of Chicago is the only American left at Orizaba, where they passed nine years. Among others in the party were J. H. Hickman, Little Rock, Ark.; E. T. Bailey, millionaire railroad man and officer of a number of Mexican roads; H. L. Francis of Charlotte, Mich.; E. E. Clay of Tyler, Tex.; Henry Abbey, representative of the Charles Butters Company, San Francisco, mechanical engineer; Mrs. A. H. Moulton, and husband, No. 2213 East Cherry street, Seattle; Albert H. Walra, wife and baby, No. 210 Post street, San Francisco, an agent of the Teutulan Copper Company; J. W. Ashley, San Antonio; Van Ray McVey, Stafford, Ky.; Dr. J. S. Alexander, No. 825 Sheridan road, Chicago; Angus Reid, Bolton road, Boston; Alfred S. Clark, No. 1424 Fourth street, New Orleans.

MEXICAN BANDIT KILLS AMERICAN.

SHOOTING MINING MAN AT CAMP NEAR OUIRICA, IN NORTH-ERN SONORA.

(BY A. P. NIGHT WIRE.)

DOUGLAS (Ariz.) May 21.—Richard Urban, a mining man of German birth, but believed to be an American citizen, was shot and killed partly today by a Mexican bandit at Claborg's Camp near Ouirica, Sonora, according to George F. Cooper, an American who arrived here today.

Cooper said he was with Urban at the camp and had a narrow escape himself. According to his story, they had gone to the camp, which had been idle for some time, intending to dismantle it and take the stores to Nacoma.

They found a Mexican in possession, sitting in a house with a rifle across his knee. A Mexican boy with the party went to spend the night with the man, and was seen no more. Cooper believed the boy was killed also.

The next morning the Americans, who had camped several hundred yards distant from the house, heard a number of shots and went to investigate. When they got near the house Urban fell dead with a bullet in his head.

Cooper reported the affair to Charles Montague, United States Consul agent at Chihuahua, who said he would take it up with the State Department. Cooper believes the culprit was a Mexican outlaw for whom the Sonora government had offered a reward.

AMERICAN IN PRISON.

LOS ANGELES MAN, Manager of Mexican Lumber Company, Hoarsely Accused of Being Charged With Murder. (BY DIRECT WIRE-EXCLUSIVE DISPATCH.)

En Route.

FORCE OF FIVE THOUSAND ON WAY TO GUADALAJARA.

(BY A. P. NIGHT WIRE.)

ON BOARD U.S.S. CALIFORNIA, Mazatlan (Mex.) May 20, (via wireless to San Diego, May 21.)—Having occupied Tepic with a force of 400 killed to themselves, and an unknown number of casualties among the Federals, an army of 5000 Constitutionalists has begun its march on Guadalajara. In advance of the moving troops, a flying squadron of cavalry is working destruction to the Huerta lines of communication. Its main object being the crippling of the railroad from Manzanillo to Guadalajara.

The capture of Tepic was accomplished after a bloody struggle. Although the losses of the Federals are uncertain, it is known that 200 of them were taken prisoners. Mazatlan is a city of many fears to day. Back of the city the Constitutionalists are gradually closing in, and the terror of their approach is augmented by the presence in their ranks of 700 feathered and fantastically-painted Indians, whose excesses, in the event of the city's fall, would be dreadful to the contemplation of the average citizen of the city, however.

ARIZONA MEXICANS PLAN AID TO HUERTA.

(BY A. P. NIGHT WIRE.)

PHOENIX (Ariz.) May 21.—A counter revolution against the Constitutionalists is planned by adherents of Huerta, according to persons familiar with conditions in Phoenix and other Arizona cities.

A gathering of Huertistas from various parts of the State is said to be planned on the Arizona-Sonora border, where, according to report, an advance guard of six armed Huertistas started today from Phoenix.

Mexicans, to an estimated total of 200, have been drifting into Phoenix from Ray and other mining towns in the last few days. Francisco Garcia, a Mexican physician, was arrested on suspicion that he was connected with the alleged revolutionary plot. Fear that Mexicans might attempt to raid the State Arsenal and obtain from it a large supply of arms and ammunition as well as machine guns has caused officials to take extra precautions in guarding it.

To Reluctant the Atlanta.

REACH NUCLEUS OF AGREEMENT.

(BY A. P. NIGHT WIRE.)

Mediators Predict Success of Bi-Partite Plan.

New Provisional Government Suggested in Mexico.

Conference Hears Rebels Will Send an Envoy.

(BY A. P. NIGHT WIRE.)

NIAGARA FALLS (Ont.) May 21.—Immediately after the receipt of press dispatches from Washington telling of the intention of the Constitutionalists to send a representative here, the three mediators went into informal conference shortly before midnight to discuss the new development.

The mediators let it be known tonight that first steps towards effecting a bi-partite agreement between the United States and the Huerta government have met with success.

The points they now will seek to effect an agreement on are: A definite understanding on the kind of provisional government to be established in Mexico City as a successor to the present regime.

A guaranteed that agrarian and other internal reforms would be put into operation.

When these two questions are settled the mediators are expected to propose to bring about an agreement between the United States and the Huerta government, expecting to obtain the acquiescence of the Constitutionalists through separate negotiations.

In brief, are the aims of the mediators, which, though hedged about by many difficulties, Ambassador de Gama of Brazil was hope-fully confident tonight would be realized.

The mediators learned from the American delegates in a conference late today that the Washington government had approved the course of procedure outlined last night by Justice Lamar and Frederick W. Lehmann, covering, it is understood, the consideration of all aspects of the series of incidents growing out of the arrest at Tampico of the American bluejackets.

The selection of this incident as the starting point for the discussion is in line with the emphasis which has been placed by the mediators on the purposes of the conference.

OBJECT TO AVOID WAR. Ambassador de Gama, talking in-formationally tonight, pointed to the fact that the tender of good offices originally was made, and the present mediation had for its principal object the averting of war between Mexico and the United States.

Mr. de Gama did not reveal any of the details of the mediators' talks with the American or Mexican delegates, but indicated that the effort at present was to bring about a satisfactory understanding between the Huerta government and the United States, under the same program respecting the solution of the Mexican problem will be submitted to the United States, if such a course seems expedient.

Such a solution, though agreed upon first by the United States and the Huerta government also would have the moral support of all Central and South American countries which have openly given their approval to the mediation idea.

No present intention is entertained by the mediators of answering Gen. Carranza's last communication, in which he inquired what the exact functions of his representative would be and what points would be discussed. In view of the unconditional acceptance by the United States of Gen. Huerta's tender of good offices without making any inquiries, the mediators did not feel that it would have been discreet on their

part to have revealed their plans to the Constitutionalists in advance of the conference.

The mediators are waiting with interest the military movements of the Constitutionalists, who hope that they will be able to effect a solution of the problem before the invading army reaches Mexico City in the near future.

THE NEW GOVERNMENT. The new government would be such a character as would ensure a systematic solution of the agrarian question and other points of internal dimension which have revolution and made the matter of big armies a comparative easy task.

The mediators had their first conference early today to discuss the character of the new government. The Mexican commissioners, as disclosed by the conference, probably will not be known until the conditions Gen. Huerta will face.

In fact, the mediators must have a clear idea of the conditions which the new government will face before they can make any suggestion of a voluntary move on its part.

The mediators are waiting with interest the military movements of the Constitutionalists, who hope that they will be able to effect a solution of the problem before the invading army reaches Mexico City in the near future.

THE new government would be of such a character as would attempt a systematic solution of the agrarian question and other points of internal dimension which have been revolution and made the ruling of the arm a comparatively easy task.

The mediators had their first opportunity early today to learn the character of the powers held by the various commissions, but such decisions by the conference, it is said, will not be known exactly under what conditions Gen. Huerta will retire. In fact, the mediators would prefer that the retirement of Huerta should come as a spontaneous and voluntary move on his part. The changing ideas and getting the viewpoint of the delegates. They will continue in this manner until a point is reached where benefits might come from a full conference such as was suggested at the first formal session yesterday.

The session with the Mexican delegates early today was held at the request of the mediators, but the Americans came about as a result of a formal call by the latter to the delegates, to whom the American delegates had not yet paid their respects on account of his late arrival.

The American commissioners tentatively told Minister Burell that they had received word from President Wilson since the talk last night and Ambassador de Gama and Mr. Naon were summoned by Mr. Burell to the conference last night.

Tonight the mediators and the American and Mexican delegates were guests of Martin Burrell, Canadian Minister of Agriculture, who was an official dinner to the distinguished visitors on behalf of the new government.

Against Attitude of
Administration.

Many Pathetic Cases in
Recent Periods.

WASHINGTON, May 21.—The Senate tonight decided to amend its pace a bit in an effort to arrange adjournment of Congress by the middle of July. A motion was adopted changing the meeting hour until further notice from noon to 11 o'clock. Night sessions probably will begin next week and the tolls repeal bill, the appropriations bill and such trust legislation as the leaders decide upon will be pushed to the exclusion of other matters.

Senator Kern, leader of the majority, informed the Senate tonight that he expected to take steps to see that the Democrats keep a quorum present hereafter, so that there would be no unnecessary delay. If Democrats fail to keep the quorum it is probable that a party conference will be called in the near future to insure a sufficient number on the floor to do business.

**TAKE PROPERTY.
BUT GIVE RECEIPT.**

**DOMINICAN REBELS LOOT UN-
PROTECTED AMERICAN SUGAR
PLANTATIONS NEAR LAROMA.**

(BY A. F. NIGHT WIRE.)
WASHINGTON, May 21.—Dominican revolutionists have looted an American sugar plantation near Laroma and other American sugar properties in that district are unprotected, according to a report to the Navy Department today from Commander Brier of the United States gunboat Wheeler, now in the Dominican waters.

Commander Brier says the revolutionists gave a receipt for the property taken.

Higley, he said, had fallen into the hands of the revolutionists operating near Macoris.

The report of the cruiser Washington reported that sniping and desultory firing from the Federal lines had caused twelve casualties among Dominican non-combatants in Puerto Plata during the past nine days, but there had been no fighting of consequence.

Capt. Eberle already has protested to President Bordas that he was not observing his agreement to safeguard the lives of all non-combatants.

The commander of the gunboat Castine at Monte Cristi reported the town was quiet, but advised the revolution was growing.

HOUSE RUSHES WORK.

Interstate Trade Commission Bill
Seems Assured of Passage Today;
General Debate Concluded.

(BY A. F. NIGHT WIRE.)
WASHINGTON, May 21.—Passage tomorrow of the Interstate State Trade Commission bill, the first of three measures on the trust legislation problem, apparently was assured tonight when the House adjourned after completing general debate and agreeing under the "five-minute rule" to more than half of the bill without amendment.

Upon the passage of this measure, the House immediately will take up the omnibus anti-trust bill with the leaders predicting a final vote on it within a week.

During the debate today Representative Montague analyzed the purposes of the proposed commission. He said it would be step toward making the law effective to protect the smaller corporations.

Arizona Postmasters Appointed.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE
TIMES, May 21.—Judson Moores has been appointed postmaster at Mohawk, Ariz., vice Chauncey E. Knapp, resigned. Melancthon Walters of Mohawk has been appointed postmaster at Rival, Ariz., vice John A. McGann, who failed to qualify.

Coxey Speaks from Capitol.

(BY A. F. DAY WIRE.)
WASHINGTON, May 21.—Gen. Jacob S. Coxey, at the head of his so-called unemployed "army" of nine, climbed the steps of the Capitol today, and unmolested by the police, delivered a prolonged speech on industrial conditions to a curious crowd.

FOR WISCONSIN LIVE STOCK.

Ten Thousand Dollars Assured for
Panama-Pacific Exposition Display
at San Francisco.

(BY A. F. DAY WIRE.)
MADISON (Wis.) May 21.—The sum of \$10,000 is assured for the Panama-Pacific Exposition Commission of this State for a Wisconsin display of live stock, it was announced today.

TO SHOW ZINC MINE.

(BY A. F. DAY WIRE.)
ST. LOUIS (Mo.) May 21.—A lead and zinc mine is actual operation will be part of Missouri's exhibit at the Panama-Pacific Exposition in San Francisco next year. This was announced by the Missouri commission to the fair, which met here last night.

The mine is to occupy 75,000 square feet of space.

The commission further announced it had received pledges aggregating \$46,000 for the mineral exhibit. The State horticultural exhibit already has been arranged.

TEACHER TELLS HER AGE.

But She Only Does It When She Is
Old Enough to Retire and Claim
Annuity.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, May 21.—There is only one time when a San Francisco schoolma'am will tell her age, and that is when she is old enough to retire and claim the \$50 annuity provided for under the teachers' retirement fund for instructors who have seen thirty years' service. The teachers are meeting in their annual institute and today the 1500 women attending voted unanimously in favor of a resolution opposing the filing of a statement of age before a pension is sought.

The act creating the fund provides that teachers shall file a blue paper stating their teaching careers, and a white paper telling, among other things, when and where they were born. The resolution was to the effect that "it would be both feasible and wise" to defer the filing of the white paper until a teacher should become an applicant for the benefits of the fund.

U. of C.'s Cashier Arraigned.

(BY A. F. DAY WIRE.)
BERKELEY, May 21.—Harry L. Wright, accused defaulting cashier of the University of California, was arraigned here today. He asked for a speedy examination and the date was set for May 25. Wright is accused of appropriating \$14,000 from the comptroller's office at the university.

ESCAPE FROM MEXICO.

Father and Son Return to Whittier
After Thrilling Experiences Near
Guatemala Line.

(LOCAL CORRESPONDENCE.)
WHITTIER, May 21.—James Robinson and son, C. W. Robinson, arrived in Whittier today from Southern Mexico, from which they escaped through the aid of a British warship. The Robinsons, father and son, were forced out of Mexico last autumn on account of the bad conditions there, but returned again. Late in April they started again for the States. James Robinson is the manager of a 15,000-acre rubber plantation near the Guatemala line. They reached the coast at Frontera April 15 in company with several other refugees and there found about fifty parties who were trying to leave Mexico. No ship was to be had. The American Consul had gone, leaving word to all to do likewise. The Mexicans were planning to place all the refugees in jail, but some wiseacre told them that such an act would bring upon them the wrath of the American navy. The entire party were placed under guard, and when a British war vessel came into port their release was secured. Americans were allowed to go aboard a fruit ship and got to New Orleans. Robinson senior thinks he will not return to Mexico; the son, however, expects to go back when peace is restored.

PREDICT ARMY REVOLT.

Refugees from Mexico City Declare
Treason Against Huerta Is Heard
Daily on the Streets.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
VERA CRUZ, May 21.—A revolt in the Mexican army in the capital at any moment would cause no surprise, according to the refugees who arrived here today. Foreigners there are expecting daily the beginning of another period similar to that of February last year.

The refugees assert all that is lacking is a leader with sufficient courage to head the movement. They say treason against Gen. Huerta is uttered boldly on the streets.

The capital is overrun with adherents of Carranza and these appear anxious to forestall any attempt of Huerta and his followers to escape. All the Cabinet officers and Huerta himself are said to be kept under close watch.

The resignation of more members of the Cabinet, including Querido Moheno, who was the most zealous supporter of Gen. Huerta, is rumored as likely in the near future.

WABASH REORGANIZATION.

Chairman of Board of Directors
Explains Part Banking Syndicate
Would Have in the Underwriting.

(BY A. F. NIGHT WIRE.)
ST. LOUIS, May 21.—Winslow S. Pierce, chairman of the board of directors of the Wabash Railroad, spent four hours on the witness stand today before the Missouri Public Service Commission, explaining the proposed plan for the reorganization of the Wabash Railroad. Public Service Commissioners from Ohio, Illinois and Michigan also were at the hearing.

Pierce went into detail as to the part Kuhn, Loeb & Co. would have as the banking syndicate that has agreed to underwrite the reorganization plan. He explained that if the holders of preferred and common stock of the present company do not exchange their holdings for common stock in the new company and pay an assessment of \$20 a share on their present holdings, the syndicate would take over the shares on which assessments were not paid, pay the assessment and receive a share of common stock for each \$20 paid.

In addition to underwriting the stock assessment, Pierce explained the syndicate is to buy \$14,000,000 in bonds of the new company at \$5. From this purchase \$11,900,000 will be obtained. More than \$13,000,000 is to be obtained by the stock assessments, making new cash for the reorganized company \$20,350,000.

GOOD WORD FOR MEXICANS.

Resident of the Capital Says Beyond Few Broken Windows Nothing Serious Has Happened.

(LOCAL CORRESPONDENCE.)
PASADENA, May 22.—A different statement regarding the situation in Mexico City than that of some of the refugees from there is made by William L. Vail, a former resident of Pasadena, and son of Mr. and Mrs. H. J. Vail of No. 862 East Villa street, in a letter that his parents received yesterday. The communication was brought north by a friend and mailed at St. Louis. It is under date of the 4th inst. and the writer expresses the belief that no great danger exists for

Americans now in the Mexican capital. He writes, in part: "We are completely cut off from the world and know nothing of what is going on. I presume, as usual, all sorts of alarming stories are being printed. The truth is, there has been nothing alarming in the situation here. Aside from a few patriotic demonstrations and a few broken windows, everything is quiet and the Mexicans of all classes are showing as a rule only sympathy and goodwill toward Americans in the city. Up to this date I have not heard one insulting word addressed to me and the government is taking every precaution against anything that might harm Americans."

"If I thought there was the slightest danger to me and mine I would be out of this before now, but I do not have the slightest fear. A great many of the old-timers are remaining and those who are going are leaving because they are out of business and have no reasons for remaining."

**DENIES REBELS
WERE FEASTED.**

(BY A. F. NIGHT WIRE.)
WASHINGTON, May 21.—Rear Admiral Doyle, commanding the United States naval forces on the west coast of Mexico, resents reports in Mexican newspapers to the effect that he entertained Constitutional generalists on the flagship California. In a cable to the Navy Department today the Admiral said no such generals had been aboard his ship.

REPORT PRISONERS SHOT.

Rebel Guards Who Start from
Nuevo Laredo With Eleven Federals
Return Without Them.

(BY A. F. NIGHT WIRE.)
LAREDO (Tex.) May 21.—Eleven Federal prisoners under Constitutional guard left Nuevo Laredo last night for Matamoros for trial. Late in the night the guards are reported to have returned without the Mexicans. This gave rise to reports that the prisoners had been executed. The body of Porfirio Lauret, an American, executed by the Federals seven months ago, was brought across the border here today.

SWITCHMEN MAY STRIKE.

Chicago Railroad Managers Hold Secret Conference; Federal Mediators Said to Be Coming.

(BY A. P. NIGHT WIRE.)

CHICAGO, May 21.—Switchmen employed in the Chicago district, debated today over plans for a walkout unless their demands for changes in working conditions are granted by the eighteen roads by which they are employed. In the meantime the Railroad Managers Committee held a secret conference in the hopes of reaching a settlement of the men's demands. It was said they were awaiting the arrival of W. G. Hanger, United States government mediator, whom they hope will be able to suggest a means out of the difficulty. A vote by the switchmen yesterday was unanimous in favor of a strike.

TRAIN OFF TRACK.

CORRY (Pa.), May 21.—A train on the Philadelphia and Erie division of the Pennsylvania Railroad was derailed one mile east of here today. No one was injured. Two coaches and a baggage car left the track.

Gigantic Liner Vandalism Escapes From Tugs and Begins Drifting Down the Hudson.

(BY A. P. DAY WIRE.)

NEW YORK, May 21.—The giant liner Vandalism broke away from tugs conveying her to her dock today and began drifting down the Hudson, carried by the tide. At times she swung broadside across the river. After the vessel had drifted more than a mile the tugs succeeded in catching her in tow again and she was headed up stream under control.

The Waterland Arrived today on her maiden voyage from Hamburg.

Her run yesterday was 384 miles and her average speed an hour was 22.9 knots. The Waterland was launched April 3, 1913. She is 950 feet in length, 100 feet beam and has a tonnage of 58,000.

She carries one commodore and four captains and a total crew of 1234.

The new giant of the seas received a welcome as she passed the harbor to her pier in Hoboken, N. J.

POSSES USE TELEPHONES.

Forest Service Instruments Keep Men Hunting Train Bandits in Kalispell With One Another.

(BY A. P. NIGHT WIRE.)

KALISPELL (Mont.), May 21.—Forestry telephones were put into use today by posse hunting in the neighborhood of Fortine, sixty miles northwest of here, the two bandits that held up a Great Northern train recently at Rondo. According to Sheriff Ingraham, who returned here today, all of the mountain trails in the region are being patrolled, the posse keeping in touch with one another by telephone.

Mrs. Flavell is Able to Say She Had Taken the Train at Florence and Was Attacked by a Young Man Who Then Robbed Her. Bloody Finger Prints Found.

Rebel Envoy to Mediation Conference.

Jose Vasconcelos.

Now on a financial mission to Montreal, who has been selected by Carranza to represent the Constitutional cause at Niagara Falls.

Wiped Out.

LEBAM, WASH., FIRESWEPT, HOMELESS SLEEP IN TENTS.

(BY A. P. NIGHT WIRE.)

LEBAM (Wash.) May 21.—Fire in the boiler-room of the Lebam Mill and Lumber Company today destroyed that plant and swept both sides of the business street of this town of 600 inhabitants, burning every business house in the town, as well as many residences. The loss tonight is estimated at \$200,000, with

Rebels Rush Envoy.

(Continued from First Page.)

plain that the ransom of \$30 per bale demanded by Gen. Carranza for the confiscated cotton is prohibitive, since the cotton is already pledged for that sum, half its value, to banks for advances made to cover costs of cultivation.

THINKS COMET AN OLD-TIMER.

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 21.—That the comet moving swiftly above the northwestern horizon toward the bright star Capella may have been whirling through the universe for at least 120 years was suggested tonight in a cablegram to the United States Naval Observatory here from Director Perrine of the Argentina observatory at Cordoba.

Mr. Perrine announced that from a study of European observations of the comet it appeared to have an orbit similar to that discovered in 1790 in Paris.

While an accurate observation of the comet's movement was obtained at the naval observatory tonight, officials there had not determined its orbit or attempted to establish its identity.

Tonight's observation revealed the comet as a hazy patch of light with a faint nucleus, but no tail. On a line between the stars Polaris and Capella the comet appeared one-half a degree to the right of Capella and a trifle above the line.

SOLDIERS CLOSE CLUB.

(BY A. P. NIGHT WIRE.)

Gov. West Sends Militiamen to Milwaukee, Where the "Friars" Is Alleged to Have Broken Law.

PORTLAND (Or.) May 21.—Acting on orders from Gov. West, Adm. Flinn of the Oregon National Guard sent two militiamen to Milwaukee tonight and they closed the Friars Club, alleged by the Governor to have been the scene of numerous infractions of the liquor laws.

Two young men and four girls were arrested today as the result of disclosures regarding alleged occurrences at the Friars Club and other similar places. The men are Drs. Kenneth J. Long and J. O. Nibley. The arrests were caused by Mrs. Lola G. Baldwin of the Portland department of safety for women.

ROBBED ON ANNIVERSARY.

(BY A. P. NIGHT WIRE.)

Postoffice Safe at Guerneville Is Blown Open by Men Who Traveled in an Automobile.

GUERNEVILLE, May 21.—Robbers who traveled in an automobile, and who robbed a blacksmith shop to get tools for their other crime, blew open the safe in the postoffice here last night, and took the contents, consisting of \$15 cash, 10,000 1-cent stamps, and 8000 2-cent stamps.

The robbery occurred, by odd coincidence, on the anniversary of the last postoffice robbery here. James McCormick and "Red" Malone were arrested a year ago today for that robbery. They were convicted.

Sheriff J. W. Smith believes the robbers headed for San Francisco through Marin county.

Bomb in Newspaper Office.

(BY PACIFIC CABLE.)

LIMA (Peru) May 21.—A bomb exploded today in the offices of El Comercio at Callao, and caused great damage. One of the editors was injured.

MILITANTS ROLL POLICE IN MUD.

Fiercest Battle in History of Gates of Palace.

Led by Mrs. Pankhurst Women Snarl and Scratch.

King George in Bay Window Witnesses Spectacle.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 21.—An attempt by militant suffragettes to prevent a reception to King George at the Palace resulted in the fiercest battle in the history of the gates of the palace today.

The thousands of volunteers almost as much in the light as the people waited in a waiting room for hours for an attack which eventually came from a totally unexpected quarter.

The police precautions had been directed toward repelling an attack from the suffragettes had advanced where they would form a parade. The small body, known because of its militant record as "pioneers" of the Women's Social and Political Union, burst from a private railway car through the archway at the end of Constitution Hill before the test of police on duty there could react.

PANKHURST AT HEAD.

Headed by Mrs. Pankhurst, the small body of women swept down Constitution Hill toward Buckingham Palace. When half-way along they met a strong wind, with water drawn from wells and carried to the buildings in pails and tubs. The homeless are being sheltered in residences which were not destroyed and in tents erected in open spaces.

The shock of the riot was not sharp, and resulted in the arrest of many women. In fact, the women themselves, using clubs and other weapons, were not afraid of the water line.

The road was not long, and the drive was without incident. Their comrades on foot pulled them in the mud, but eventually the women were driven back to the car. Several of the women were injured, and one was taken to a hospital.

One group of women was driven across the road by a police car, where mounted police surrounded them and placed them in the back of the car.

USE WATER SPRINKLERS.

The crowd was so dense that the attempts of the police to clear the drive were without effect. The water was used to clear the drive, and the women were driven back to the car.

The women were driven back to the car, and the police were able to clear the drive. The women were then taken to a hospital.

The women were then taken to a hospital, and the police were able to clear the drive. The women were then taken to a hospital.

The women were then taken to a hospital, and the police were able to clear the drive. The women were then taken to a hospital.

Walnut Park a Paradise of Beautiful Homes

More and more, demand is growing for homesites that combine the beautiful and the picturesque with the practical utility conveniences of the city.

As a subdivision combining these advantages, Walnut Park is unique. All the homesites in Walnut Park are covered with magnificent full-grown walnut trees just ready for you to erect your home beneath their wide-spreading branches. The actual value of these trees is from \$200 to \$300 per lot, not to mention the beauty and the shade which they immediately provide.

Walnut Park is reached by 5c yellow car; has paved streets, walks, curbs, lawn-set parkways,

Walnut Park homesites can be purchased for \$650—\$65 cash, \$10 monthly, with no interest for two years. To reach Walnut Park, take car marked "Walnut Park" on Seventh street and where east of Spring, or come to our office and we will take you in auto.

SAVING TIME.

All proposals in the mediation conference must first be submitted to President Wilson before they can go through. Perhaps he should write them in the first place and save the members of the commission from too much guess work.

THE CALIFORNIA ARTICLE.

We don't know much about the blue hills of Scotland, but if they are anything like those of the Jacaranda trees now blooming in Los Angeles they must be a joy to the people of the bonnie hielie heather. The trouble is the Jacarandas are too tall for picking and are purple, anyway.

FAILURE OF THE TRUST-BUSTERS.

A special Washington correspondent of the New York Journal of Commerce is of the opinion that President Wilson's trust-busting bill will not, if it should be enacted, "bust" a single trust. He indorses the report of Congressman Morgan of Oklahoma, who says:

"Taking the anti-trust provisions of the bill as a whole, if they were all enacted into law they would not destroy a single trust, abolish a single monopoly or add materially to competition."

"The provisions of the bill, if placed upon the statute books, will not reduce the size of our great corporations, nor materially lessen the power they now possess to arbitrarily control prices. Enact this bill into law and big business will go on and on with no adequate restraint, either in the way of broad, comprehensive, statutory enactments in the way of a properly empowered administrative or semi-judicial commission, which I regard as an absolute necessity for the protection of the people, as well as for the substantial and permanent prosperity of our industrial and business interests, both at home and abroad."

INCREASE OF PINEAPPLE CROP.

The people of the United States are increasing their consumption of Hawaiian pineapples at a rate that brings consolation to the sugar planters, who were menaced with bankruptcy by the free-sugar schedule in the new tariff. Many sugar plantations on Oahu and the other islands are being changed into pineapple plantations. In years gone by consumers were accustomed to purchase whole pineapples and rare and alien them for the table. The fruit was necessarily gathered before it was fully ripe, for the ripe pineapples would not bear any lengthy transportation. Now the fruit is suffered to fully ripen before it is gathered. It is then pared and sliced or grated and cooked and canned. The unripe pineapple is stringy. The ripe pineapple is so pulpy that it may be eaten with a spoon.

In 1901, the entire output of canned pineapples from the Hawaiian Islands was but 2000 cases; in 1902 it was 6000 cases; in 1903, 9500 cases; in 1904, 25,500 cases; in 1905, 51,300 cases; in 1906, 84,200 cases, and in 1907, 186,300 cases. In 1908 it was 410,000 cases, and in 1912, 1,200,000 cases. It is estimated that the output of the present season will be 2,000,000 cases or 1000 times greater than in 1901.

The entire crop is consumed in the United States.

It is believed that the pineapple can be grown to advantage in Imperial Valley and the Lower Colorado River lands.

NO RURAL CREDITS.

President Wilson doesn't care a Connecticut River dam for impetuous farmers. He hides them "to be" leaving them to fill the blank with such aspirations for their future welfare and happiness as may occur to them and as they may deem appropriate. He has not merely shelved the farmers' financial relief bill; he has, notwithstanding the walls and prayers and curses of the joint subcommittees of the House and Senate on the rural credit bill, kicked that measure of relief for agriculturalists into the garbage heap of politics. In accordance with his general policy he favors legislation that will raise hell rather than that which will help to raise cabbages and potatoes.

The joint committee of twelve members of the two committees on banking and currency, after months of study, had prepared a measure involving material government assistance in the financing of farm-land banks. The President hit on this measure like a hen hawk on a June bug and ordered Congress to eliminate it from the legislative programme of the session.

The Democrats on the committee, in order to avert the wrath of their farmer constituents, asked the President to set forth his position in a public statement. This the Princeton professor refused to do. "It reasons for his action were so plenty as blackberries he would not give one upon compulsion." Thereupon the members of the joint subcommittee became enraged and defied the President by introducing bills in both the House and Senate providing for rural credit banks. The committee stands 10 to 2 in favor of the measure, and they declare that no farm-credit bill that does not include the principle of government aid can pass Congress. The two opponents were Congressman Platt of New York and—strangely enough—Congressman Hayes of California.

It remains only for the Panama tolls repeal bill to be jammed through the Senate and the trust-busting bill to be passed to enable Congress to adjourn and members and Senators to have an opportunity to go home and explain to their constituents the acts of moral and political turpitude of which they have been guilty.

MAKING LAWS AT THE POLLS.

Theoretically it may be a fine thing to have the people make laws by the simple process of voting at a general election. In a case like that the theoretical supposition exists that the people knew something about the laws they are passing or refusing to pass; and when it is considered that erudite and experienced lawmakers, assembled in a small, deliberative body, are reduced to the necessity of long study, prolonged discussions pro and con, amendments and revisions, then the hopelessness of ever enlightening the general public so that it is actually competent to pass on the merits and demerits of proposed amendments, bonding acts and referendum and initiative measures becomes apparent.

On November 3 of this year the citizens of California will decide the fate of some three dozen such proposed amendments, acts and measures. They range in scope from the advisability of holding extra sessions of the District Court of Appeals to the sale of wild game. There are enough puzzles in any few of those proposed measures to keep a lawyer busy and undecided as to the advantages and disadvantages of passing them. And the public is not only lacking in the training to study and comprehend the significance of these measures, but has practically no opportunity for even attempting that study and must depend almost entirely on irresponsible arguments chiefly by those who have some interest to serve in passing or killing the measures.

It is all very complicated, and uselessly so. The members of the Legislature often make mistakes, perhaps; but there was infinitely less chance of their doing so than the haphazard and largely fortuitous method of a popular election.

It is not difficult to conjecture approximately as to the number of people who are not able, and will not in November be able, to speak authoritatively of measures on which they will be privileged to vote with as much effect as any scholarly lawmaker in the State; such measures, for instance, as these, which will be submitted to the popular vote:

A constitutional amendment relating to the exemption of certain property of educational institutions from taxation.

A constitutional amendment relating to the exemption of vessels engaged in commerce from taxation.

A constitutional amendment relating to the taking of property for public use; relating to the operation of public utilities by municipal corporations; relating to revenue and taxation; relating to elections; relating to the limitation of expense for officers and employees of the Legislature; also one relative to calling a convention to revise the State Constitution and to provide the number and qualification, compensation and manner of electing the delegates to such convention.

And others that relate to the election of United States Senators; to the condition and welfare of employees; to public utilities, their supervision and regulation; to the charters to counties and the amendments to such charters; to the issuance and sale of "State building bonds"; to the erection of buildings at San Francisco; to the "State fair grounds bonds"; to the improvement of the San Francisco Harbor; to the suppression of prostitution; to the creation of the office of Commissioner of Corporations, providing penalties to corporations for violations of the law under which the commissioner will operate; to the regulation of the use of water; to the abolition of the poll tax; to punishment for employers for working employees more than eight hours per day, and many, many more measures of a similar nature.

A most puzzling labyrinth into which to lead the people of California! It amounts to saying that they haven't the intelligence to select honest men to make laws for them, but are competent to pass on the intricate questions that would disturb the most intelligent and sincere men who could be sent to the Legislature.

A REVOLUTIONARY SUGGESTION.

Senator Smoot of Utah is opposed to the repeal of the Panama Canal tolls exemption bill. In a recent speech in the United States Senate he said:

"What do you think will be our position in the eyes of foreign nations if the act of the former administration is repudiated by the present one, based upon the request that it ought to be done? Another righter right?"

"If our position is reversed, is there any Senator who believes that England would yield an interest of vital importance to her as our dictation? No, Mr. President, a thousand times no. And I would commend her for her loyalty to her own."

"I now say without fear of contradiction, if you submit to the request and yield our constitutional rights, it will be the beginning of further demands made upon us by other nations. I cannot agree to accept the demands of the United States, whether right or wrong. This is a strange and modern demand, a weak and defenseless position for any American to take and is not worthy of the sons of the patriot fathers of the revolution, who won for us by blood and sacrifice the blessing of liberty."

"We should encourage our own merchant marine, built on American soil and by American workmen, manned by American sailors and flying solely the American flag."

It has been suggested that the partnership between England and the transcontinental railroads, to prevent any growth of the American mercantile marine and upon the people of the Pacific Coast to the payment of \$120 per ton on millions of tons of freight to the transcontinental roads, might be broken up by repealing the law which excludes foreign ships from trading between American ports. England and Germany and the Scandinavian countries, with cheaper-built ships and lower wages to seamen, could afford to carry freight and passengers between New York and San Pedro and between Seattle and San Francisco and on the lake between Chicago and Buffalo at rates that would speedily drive out of business the remainder of our American ships, and, since they are to be made satraps of the railroad pool, anyhow, why not let them go and offset the \$120 per ton on freight that the repeal bill will cost us by employing foreign ships to do our coastwise carrying, the railroad syndicate, powerful as it is, could not control the commercial marine of all the nations between the Baltic and the Mediterranean.

An Expression of Opinion.

MEN AND THINGS
ACROSS THE SEA.

China's Prosperity.

China has the smallest per capita indebtedness of any great nation, her total indebtedness being \$663,824,995, with a population of 400,000,000. Her debt, per capita, is therefore \$1.66. The per capita debt of Great Britain is \$77.26; Germany, \$75.67; France, \$67.65; Japan, \$18.50; United States, \$16.81. China is rapidly overcoming the extravagance and wasteful administrative practices, which were among the worst features of Manchu misrule. The President of China and officials, high and low, are co-operating to prune expenses so as to bring them within the absolute minimum commensurate with efficiency. At the same time steps are being taken to increase the government's revenue, so as to supply a liberal margin for all contingencies. In this connection, at the request of China, revision of the customs tariff is being negotiated at Peking.

All the government departments are conducted under appropriations fixed in the annual budget. According to the budget for the second fiscal year the total expenditure is given as \$418,096,306.27; and the receipts as \$362,798,455.49, leaving a deficit of \$55,297,850.78. This, however, is an extraordinary budget, many heavy and unavoidable obligations having to be faced.

Berlin's "Egg Source." [Minneapolis Journal:] While American housewives are forming anti-egg trust unions and battling to kill eggs somewhere below a dollar a dozen, Berlin, said to be the biggest egg consumer of any city, of its size in the world, has solved the solution of egg prices by means of an "egg source."

Berlin eats a little more than 1,600,000,000 eggs a year, or an average of about one and a half eggs a day for each man, woman and child. Berliners pay between \$11,000,000 and \$12,000,000 a year for eggs. Despite the fact that Germany imported 655,715,340 eggs last year because it does not produce enough for its own consumption, the price in Berlin averaged between 20 and 27 cents a dozen. The greater part of the imported eggs come from Russia, which is the largest egg-producing country in the world. It exports annually about 4,000,000,000 eggs. Austria and Denmark follow next.

England Controls no Cables.

[St. Louis Globe-Democrat:] "In the year 1912 all the British telegraph cables crossing the North Atlantic passed into the hands of a foreign company." This statement is made in an article in the Quarterly Review on "Imperial Interdependence," by Charles Bright, who says that of thirteen cables connecting the United Kingdom with Canada not one is under British jurisdiction. Seven of them belong to the Western Union Telegraph Company and five to the Commercial Cable Company, both of which are American. According to Mr. Bright's chart, the North Atlantic is crossed by eight cables from the west of Ireland, two from Cornwall, while one line from Ireland and one from Cornwall go to the Azores, whence two cables go to the United States. Three Atlantic cables have their shore ends at Brest, and there is a cable from Lisbon to the Azores.

It is certainly remarkable that none of them should be under British control, and that there should no longer be an Atlantic cable in British possession with both its shore ends in British territory. Such a cable seems an indispensable link to the world circuit of British telegraphs, and Mr. Bright is probably right by advocating its construction if the existing cables have passed out of British control for as long a period as ninety-nine years. It would be an advantage for England in case of international troubles to have her own cables completely connecting the various parts of the empire. The circuit of the globe for British purposes would be completed by a British cable to Canada.

Even Kings Must "Tip." [New York Sun:] When a man begins to crumble at the tipping habit he should thank his stars he does not belong to the nobility. The sums paid out by royalty in tipping servants while on a visit would support several families for a year.

For instance, the late King Edward's tipping bills ran into the thousands each year. He made it a point when visiting a friend, even for a few hours, never to leave without bestowing notes among the servants.

It is said that when he visited for the week-end he seldom left less than \$1000 to be distributed as tips.

When the King went to a shooting party each hunter received \$5 and the head keeper

or \$25 or more, according to the duration of the visit.

The Kaiser is said to be the most liberal tipper among royalty of Europe. It is said that every servant in a house which he visits is sure to be remembered.

MAY.
WALT MASON IN THE TIMES.

This blooming month deserves all praise, and should inspire some poet's song; it ought to have two hundred days, and each day just a fortnight long. In May the winter chill is gone, and there's not heat enough to hurt, and we can play upon the lawn, or manufacture pies of dirt. The garden as we love is cheap, and we may have a full feast; the nights are cool, and we can sleep as sleep Old Masters in the connection, at the request of China, revision of the customs tariff is being negotiated at Peking.

Lord John Russell, Premier at that time, when appealed to by Irish members to present this carrying away of Ireland's only available food supply, declared England could take no measure to interfere with the legitimate trade of any of her subjects. All through the crisis the government subscribed to a similar doctrine of devil.

After nearly two million men, women and children had actually died of starvation supplies were raised for relief of the famine-stricken districts in different parts of the empire. The government was again requested to donate the use of the Queen's ships for carrying these supplies to Irish ports so as to meet the dire necessity as speedily as possible. This request was refused on the grounds that it would work a hardship against private ship owners.

Finally, when the whole world was up in arms at the fearful mortality among the Irish peasantry, the government grudgingly passed a measure of relief. But tacked to it was a monstrous rider for depriving the starving peasants of their pitiful homesteads. The relief supplies were only available for those who didn't own a roof of land. So to obtain a mouthful of yellow meal for their wives and babies the peasant proprietors were compelled to leave their small holdings and these were quickly absorbed by the absentee landlords.

As a result of these wholesale confiscations poverty-stricken fugitives fled to the Atlantic by the thousands. They were packed like sardines into fetid steerage compartments, and after suffering unprintable cruelties and abuses, were landed penniless on the shores of America. There they received that help and encouragement consistently denied them in the land of their birth. Many of them made good, some amassed fortunes, and it is the children of these victims of the Ellis Island famine who are supplying the sinews of war for the present home-rule campaign.

The key to the situation in Parliament is national resentment. John Redmond, who was Parnell's most loyal lieutenant, declared, when his leader died broken-hearted, that he would carry on Parnell's policies so long as he had an ounce of strength left in him. These are Parnell's own words: "I believe in the policy of wringing anything from England we can wring from her which will strengthen our arms to GO ON FOR MORE."

John Redmond is wringing the present measure of home rule from the ministry as a starter. Indeed Redmond himself said in 1901, Ireland for the Irish is our motto, the consummation of all our hopes and aspirations is to drive English rule, sooner or later, back and baggage, from our country." Mr. Devlin, Redmond's first lieutenant, said at Philadelphia in 1908, "I believe in the reparation of Ireland from England till Ireland is as free as the air we breathe."

Believe me, there is no friendship for the government behind the support given to Mr. Asquith by the Irish Nationalists. It is part of the heritage of hate. It is a decisive step in carrying on the policy of Parnell. It is the first real concession an Irishman has been able to wring from a British Cabinet.

The Orangemen know this. The army officers who resigned their commissions know this. They feel the thin edge of the wedge entering in to cleave in two the British Empire.

The minority in Ulster is not arming to fight the present home-rule bill alone; they know this is simply to strengthen the arms of the Nationalists. To go on for more. They remember the words of Parnell, Redmond and Devlin, and they dread the time when the lie shall be cut completely and the real object of home rule—Irish independence—be an accomplished fact.

Then will the descendants of Cromwell's Ironsides find themselves a small colony of foreigners in a hostile land. History tells them that the foreign colonies planted in Ireland by Richard II and Henry VIII were quickly swept away when not backed by English force and English-made laws. Ulster is fighting "the broom" of the Nationalists.

History tells them that the foreign colonies planted in Ireland by Richard II and Henry VIII were quickly swept away when not backed by English force and English-made laws. Ulster is fighting "the broom" of the Nationalists.

A HERITAGE OF HATE.

BY HARRY BOWLING.

To understand the bitter spirit behind the present conflict in Ireland one must have either lived in that country or have been born of Irish parents.

For seven centuries England's rule in Ireland was cruel and oppressive. For the last twenty-five years it has been fair and equitable. But a debt of oppression, accumulating at compound interest for seven centuries, cannot be liquidated by a few years of attempted conciliation.

In Ireland has been bred a heritage of hate for England and the English. She doesn't want to be conciliated. She doesn't want to be better governed. She wants the tie between herself and Great Britain to be cut sharply in two and the ends hermetically sealed.

This may seem a strong statement, but a cursory view of Irish history will supply a more than adequate motive, and recorded words of present leaders among the Nationalists will confirm this conclusion.

Her treatment of Ireland furnishes the gravest indictment against England, the blackest blot on her generally-glorious history. The Plantagenets and Tudors both attempted to Anglicize the Celt by planting foreign colonies in Connaught and Leinster. These were as incapable of mixing with the natives as oil with water. Armed force was used to compel the Celts to accept this programme, and a racial hatred was started that ever since has grown in intensity. Whenever the armies of the King were withdrawn for other wars the Celts rose against the foreigners and drove them out.

Cromwell, with an iron hand, planted one successful colony in the north of Ireland and from this colony has sprung the Orangemen of today. Of Scotch origin, he is permeated with the strong religious intolerance of the Cromwellian puritan. He has also inherited his capacity for fight, thrift and commerce.

Three times have Irish rights been confiscated by their English rulers. The last act of union was the result of such political juggling as no Irishman can ever forget. Of the atrocities perpetrated in 1798 Grattan said: "To find a worse government than the government of England in Ireland you must go to hell for your policy and to bedlam for your discretion."

But undoubtedly the acts of the British government during the Black Famine in the years 1845-1847 are the chief cause of the present hatred felt by the Irish Nationalists for England and all things English. In these years the potato crop, on which the poor Irish peasants relied for a meager sustenance, through excessive and ceaseless moisture rotted in the soil. The wheat crop, however, was excellent and at first no apprehensions were felt. Then the absentee landlords, who owned the wheat lands, deliberately shipped all the wheat to England, sold it there and dissipated the money among the fast set in the British metropolis.

Lord John Russell, Premier at that time, when appealed to by Irish members to present this carrying away of Ireland's only available food supply, declared England could take no measure to interfere with the legitimate trade of any of her subjects. All through the crisis the government subscribed to a similar doctrine of devil.

After nearly two million men, women and children had actually died of starvation supplies were raised for relief of the famine-stricken districts in different parts of the empire. The government was again requested to donate the use of the Queen's ships for carrying these supplies to Irish ports so as to meet the dire necessity as speedily as possible. This request was refused on the grounds that it would work a hardship against private ship owners.

Finally, when the whole world was up in arms at the fearful mortality among the Irish peasantry, the government grudgingly passed a measure of relief. But tacked to it was a monstrous rider for depriving the starving peasants of their pitiful homesteads. The relief supplies were only available for those who didn't own a roof of land. So to obtain a mouthful of yellow meal for their wives and babies the peasant proprietors were compelled to leave their small holdings and these were quickly absorbed by the absentee landlords.

As a result of these wholesale confiscations poverty-stricken fugitives fled to the Atlantic by the thousands. They were packed like sardines into fetid steerage compartments, and after suffering unprintable cruelties and abuses, were landed penniless on the shores of America. There they received that help and encouragement consistently denied them in the land of their birth. Many of them made good, some amassed fortunes, and it is the children of these victims of the Ellis Island famine who are supplying the sinews of war for the present home-rule campaign.

The key to the situation in Parliament is national resentment. John Redmond, who was Parnell's most loyal lieutenant, declared, when his leader died broken-hearted, that he would carry on Parnell's policies so long as he had an ounce of strength left in him. These are Parnell's own words: "I believe in the policy of wringing anything from England we can wring from her which will strengthen our arms to GO ON FOR MORE."

John Redmond is wringing the present measure of home rule from the ministry as a starter. Indeed Redmond himself said in 1901, Ireland for the Irish is our motto, the consummation of all our hopes and aspirations is to drive English rule, sooner or later, back and baggage, from our country." Mr. Devlin, Redmond's first lieutenant, said at Philadelphia in 1908, "I believe in the reparation of Ireland from England till Ireland is as free as the air we breathe."

Believe me, there is no friendship for the government behind the support given to Mr. Asquith by the Irish Nationalists. It is part of the heritage of hate. It is a decisive step in carrying on the policy of Parnell. It is the first real concession an Irishman has been able to wring from a British Cabinet.

Will You Pay \$11.75 for Suits That Were Formerly \$13.50 to \$25 Each?

Nobody will ever believe you paid so little for your suit, if it is one from this very choice assortment. For these garments sold readily, earlier in the season, at full prices, because they are such splendid values:

Suits, Special, \$16.75

Plain Styles
—for the most part, in navy, and the lighter blues; checks, too; and a few silk-and-wool moires, in women's sizes; gray and tan mixtures in misses' sizes; special \$11.75 (Garment Section; Second Floor)

—they were \$25—poplins, serges, granites, crepe poplin, crepe Bedford, gray mixtures, checks in navy, Copen and brown; plain and fancy models to choose from, \$16.75.

American Hand-Embroidered Lingerie—Pretty, Substantial

Except for the fact that these garments are put together by machinery, they are every bit as fine and dainty as the French lingerie, which costs much more. You will find that they launder well, that the materials are substantial—and surely, the prices are low enough to suit anybody!

Children's Wash Dresses 75c

Not 75c qualities, by any means!

White percale, repp, dimity, pique, tailored styles—long sleeves, high or low necks; sizes to 5; values to \$3, because they are soiled 75c

Caddeback Sun Bonnets—made of matting and gingham; children's; were 65c and 75c, at 50c

Gingham Aprons—blue or pink checks and plain tan; sizes 2 to 6; were 50c, at 25c. Small sizes in tan and gray; white bound; at 10c; three for 25c.

Lingerie Hats—for girls and misses; of dimity, lawns and allover embroidery; soiled; values to \$7.50, for \$2 (Children's Wear; Second Floor)

See the Window of Silk in Combinations

We have arranged a tasteful window display this week, showing just a few of the charming combinations which may be made with chiffon taffetas and novelty crepes—which hundreds of women are buying nowadays to make up into gowns with panniers, coats, capes or similar combinations:

In The Window

appear taffetas ranging in price from \$1.50 to \$3; crepes from \$2.50 to \$6 a yard—of course, we have an infinite variety of other color schemes to show you, besides the ones here on display.

And there are, as well, materials at lower, and higher prices; so that no woman who desires a gown of this type need go away from Coulter's unsatisfied, whether she expects to pay much or little for the materials.

(Silks; Broadway Annex)

A Sale of Pajamas for Men

Well-made pajamas, in soiesette, madras or crepe; an unusual opportunity to replenish summer supplies in this special sale. At the reductions offered, we cannot promise a full range of sizes for very long—

\$1.50 Pajamas, \$1.15	\$2.00 Pajamas, \$1.50
\$2.50 Pajamas, \$2.00	\$3.00 Pajamas, \$2.25
\$3.25 Pajamas, \$2.75	

All- linen Handkerchiefs

with narrow hems; we sell them usually at \$1.25 a dozen, special \$1

Interwoven Hose

—the ideal summer hose for men, because, though sheer as can be, they are guaranteed for wear—every pair!

If you like cotton, they are here at 25c a pair; lisle thread, at 35c; and silk at 50c—hand-some half hose as you could buy at ANY price—and twice as serviceable as most kinds. (Men's Furnishings; South Able)

Taffeta Silk Waists, \$3.75

We say NOW, because duplicates of these charming and very fashionable waists have been selling here at \$6.50; taffeta silk being so fashionable now, and these in the best-liked style:

Plain Colors
—navy, white, pink, lavender and Copenhagen; one of the newest models shown this spring; choice at \$3.75

La Grecque Corsets

Please particular women, because of their easy-fitting qualities, their style of line and grace of contour. Have at prices from \$1.50 to \$12—the Lattice Model, for slender figures, \$2.50 to \$4.

Dr. Deimel Linen Mesh Brasieres—stayed with corset boning, only \$1.

(Corsets; Second Floor)

215-229 South Broadway—224-228 South Hill Street.

MOVEMENTS IN SOCIETY.

DANCING, which is an ever-popular diversion, is to be one of the principal entertainment features at the May fest which the Brownson House Settlement Association will give Saturday afternoon and evening at the home of Mr. and Mrs. W. H. Workman, No. 187 Boyle avenue. The affair is not invitational, but will be open to all who are interested in the splendid philanthropic work carried on there.

In addition to the dancing, which will be enjoyed on the tennis courts under the direction of Mr. and Mrs. A. J. Bayer, there will be a vaudeville entertainment under the direction of Miss Gertrude Workman. Among those who will take part are Dick Morgan of Stanford University, James Patten, also of Stanford; Miss Gertrude Workman; Garretta Wynn; W. H. Ruggles; Charles Reynolds; Walter Reynolds; Art Wells; Miss Donna Adams; Miss Ruth Hufschman; Miss Gretchen Adams; Miss Adeline Fortin; Miss Maude Howell; Miss Dora Holmes; A. C. Despond; Miss Grace Seward; Miss Isabelle Bertram; Miss Carmelita Rosecrans; Will Rosecrans; Miss Katherine and Virginia Reynolds; Miss Edith H. Rose; Miss Grady Percy; Miss Esther Liveridge; Mrs. W. H. Workman, Jr., and Miss Lucy Howell.

An exhibition of the Mexican women's drawwork will be given, and also the handicraft of the boys and girls of the settlement.

Bridge Luncheon. Mrs. Charles Lantz was the hostess at a small bridge party Tuesday afternoon at her Figueroa-street home. The guests included Mrs. Willoughby Rodman, Mrs. Joseph Banning, Miss Mary Banning, Mrs. John Scott, Mrs. Bugbee, Mrs. Johnson, Mrs. John Stone, Mrs. Kirkpatrick, just returned from abroad; Mrs. Bortley, Miss Annie Ward and Mrs. W. S. Daniels. Miss Lucy Lantz and Miss Margaret Daniels assisted the hostess.

Hospitable Owl. The Owl Fraternity was the host at an exceptionally joyous dance Tuesday evening at the Bote home in Pasadena. Frank and Helen Bote are members of this fraternity. There were about fifty guests and dancing was kept up until Wednesday morning. Supper was served on the upper floors of the house. The fraternity is in connection with Occidental College and many of the

feminine guests were girl students of the senior class. The Occidental seniors were also entertained by Mrs. Bote, wife of the president of the college, at the Valley Hunt Club, Pasadena, on Saturday last, to celebrate their graduation. It was an unusually charming luncheon, the decorations being carried out in rich shades of orange, the college colors. The table turned a cross, in the center of which was a black tiger with an orange bow on his tail—a tiger being Occidental's mascot.

For Bride-Elect. An elaborate dinner party is planned for the 30th inst., in honor of Miss Lucia Holman and her fiancé, Alvin Frank. Young women in the bridal party will be hostesses and following the tempting repeat dancing will be enjoyed.

Miss Holman will become Mrs. Frank on June 4, the service to take place in Temple Emanuel. A reception will follow at the home of the bride's parents, Mr. and Mrs. Maurice Holman of No. 1125 Harvard boulevard. Miss Holman has been asked to serve as matron and the two maid of honor will be Miss Marian Adler and Miss Helen Harbach. The six bridesmaids are Miss Frances Newman, Miss Alice Schwab, Miss Sally Heller, Miss Josephine Goldsmith, Miss Edna Stern and Miss Lucy Reed.

At California Club. Mrs. Frederick C. Finkle, No. 407 West Thirty-first street, entertained with an enjoyable luncheon at the California Club, Wednesday, honoring the members of the Shamrock Club.

The luncheon table was arranged with crimson carnations, bunches of hollyhocks and maiden hair ferns, and red and gold monogrammed cards marked covers. Tables were arranged for games of auction, following luncheon, and prizes fell to Misses Hosenstein and Wagner. Members present included Mrs. H. H. Rose, Mrs. Fred Sandercock of San Francisco, Madame Kline of Racine, Wis., Mrs. E. J. Brent, Mrs. M. R. Mohr, Mrs. W. H. Schmeider, Mrs. Margaret Hawkins, Mrs. Frank A. Jay, Mrs. J. W. Summerville, Mrs. David Belcher, Mrs. Joe Zemansky, Mrs. Arthur Leary, Mrs. F. B. Harbert and Mrs. Leonard Woodward.

Auction Tea. A delightfully-appointed bridge tea was presided over by Mrs. William Phillips Marky Friday afternoon at the California Club.

MILLER'S THEATRE—Now showing. A program of unusual strength, including the three-part political drama, "MONGREL AND MASTER"

REPUBLIC THEATRE—MATS, 2:15

ALONG THE SWANEE RIVER 10c-15c. GOOD SEAT ON AN OSTRICH 25c. Come to the Caverton Ostrich Farm, South Pasadena any day at 2 p. m., and enjoy a ride on a huge ostrich. On Main Street. Round trip ticket including admission to farm 5c, no sale at P. H. Depot or at Carson's downtown store, 713 South Broadway.

her home, No. 116 Serrano street. The dainty Cecile was used exclusively in the rooms given over to the affair, and invitations were issued to Mrs. Carl Schultz, Mrs. George Coffin, Mrs. W. H. Wheeler, Mrs. J. Y. Blalock, Mrs. E. W. Sawe, Mrs. Cranston Chase, Mrs. D. W. Marks, Mrs. Clarence B. Penn, Mrs. George Keeler, Mrs. Ben Howes, Mrs. George Keeler, Mrs. Frank Climer, Mrs. Vanden, Aker, Ritchie, Coffin, Bunn, Mrs. William Harrison, Mrs. Harry Thompson and Miss Mabel Smith.

Pretty Wedding. A small wedding of much interest took place at the home of Mrs. D. E. Kinney of No. 1619 Franklin avenue, Hollywood, last Thursday week at 3 o'clock, when her daughter, Miss Gladys A. Kinney, became the bride of Milton J. Kinney, a young business man of Hollywood.

The bride, who was given away by her uncle, D. C. Putney, wore a dainty gown of lace over meringue. A shower of bride roses and lilies was tossed by the bride, and the bridesmaids carried a bouquet of lilies. The bride and groom were seated at the head of the table, and the wedding feast was served. The ceremony was performed by the Rev. J. H. Church, pastor of the Hollywood Methodist church. The wedding march was played by the bride's friends, and the ceremony was a most successful one.

The rooms were all done in white and green, baskets of white carnations and masses of asparagus fern being used. The bride and groom were seated at a white floral bed which was suspended from an arch of fern. After a wedding supper the happy couple departed for a short wedding trip, and after May 21, will be at home to friends at the Hollywood apartments.

Football Club. The Football Club of Hollywood was entertained by Mrs. George Blakeslee at the Canyon drive, with a 1 o'clock luncheon. Mrs. A. J. Prosser was awarded the prize for auction bridge. Speddy put her for the afternoon were Mrs. M. E. Rinckel of Carson City, Nev., mother of the hostess, Mrs. M. E. Rinckel of Denver, Colo., and Mrs. W. Robinson of Los Angeles and Miss Margaret Schwartzkuppe of Ohio.

U.S.C. Banquet. The members of the senior class of the University of Southern California, who are to be graduated this year, were entertained at a banquet at the Junior club at the Hotel Hollywood last Tuesday evening. This is an annual affair of the popular university and is one of the most important social events of the school year. Class colors were used in the decorations and the dancing was enjoyed until 12 o'clock.

For Mrs. Williams. Mrs. William F. Herndon of No. 1715 Whittier avenue, Hollywood, entertained recently with a luncheon party complimenting Mrs. Presley Williams, who has just returned from the East a day or so ago, and who has been the house guest of her sister, Mrs. Mary L. Deland, of Grand View, the winter home of Mrs. Herndon. D. Meyer delightfully entertained the guests for the afternoon.

Home Guest. Miss Eleanor Franklin of Stockton is the house guest of Miss Helen Blakeslee, 222 North Babcock avenue, Hollywood. Many charming affairs are being planned in honor of Miss Franklin.

May Luncheon. Mrs. H. B. Green of Hollywood, who has been visiting for some months at the Ellison apartments, Venice, entertained the members of the Sewing club with a May luncheon, last week. The tables were set for eighteen guests and were marvels of floral beauty. Around the room were huge Japanese lanterns of red, yellow and white. Little baskets in pastel shades filled with candies were favors for the affair.

Entertain Club. Mrs. Jessie Carter entertained the members of the Canyon Women's Club Monday at her Hollywood home, No. 6665 Franklin avenue. The room was daintily decorated with the club colors, yellow and white.

CALIFORNIA MONUMENTS. Suggestion Made to Commemorate Deeds of Men Who Contributed to the State's Greatness. In an address before the California Club at the Grosvenor Hotel in Pasadena, last night, on the subject of "Monuments for California," John S. McGroarty, author of the Mission Play, advanced the argument that the people of the various communities of the State can serve the cause of history and education in no better way than by erecting monuments to commemorate the lives and deeds of men who have contributed to California's greatness.

Among the great figures of the past in whose memory monuments should be erected, the speaker mentioned the following: To Don Felipe de Neve, who founded the city of Los Angeles. This monument, he said, should be erected in the Plaza by the popular subscription. To Padre Luis Jayme, the first martyr to the Christian faith in California. To be erected on the spot where he fell in the Mission Valley at San Diego.

To Padre Juan Crespi, who named the valleys, rivers and mountains when he marched with Portola in search of Monterey on the memorable expedition of 1769. To Theodore Judah, whose immortal dream of the Central Pacific Railroad across the snow-crowned Sierra resulted in joining the Atlantic and the Pacific in bands of steel. This monument should be erected at the highest summit of the Sierra Nevada Mountains by contributions of the railroad men of the State.

To William B. Ide, who wrote the Declaration of Independence of the Bear Flag Republic. To be built in the Plaza of Sonoma by the people of that city. To Capt. Archibald Gillespie, who, in the town of 1846, carried the "message to Garcia," who bore the brunt of the heaviest burdens and whose services to California were the most meritorious of any American of his time.

To Juan de Ayala, the first man to sail a ship through the Golden Gate. Dr. Pedro Prat, California's first physician. Don Gaspar de Portola, the first Governor. Robert Semple, the first editor. Father Peralta, who planted the first pepper tree—these and a number of others were mentioned by McGroarty as worthy of monuments.

WOMEN'S WORK, WOMEN'S CLUBS.

BY SYDNEY FORD.

Anyone who can acquire such fluent English and use it to such purpose as can William Schade, municipal club inspector, needs make no apology for his speech even before a critical audience as the civic section of the Ebell. He abundantly proved his capability as a linguist yesterday when he explained the intricacies of that troublesome little instrument—the meter— which he freely admitted has been the cause of more profane language than any other article of its size. In the beginning Schade apologized for what he styled his defective English, explaining that he did not come to America till he was 26 years old and all the knowledge he had of the English language had been acquired since then. Before he was through all of us women thought we understood why he had such a defective English, and the long-suffering gas company. Why, then, that man could make you think he was white and if you went to his office "there's just a wager you'd come away with the feeling that you ought to apologize to close friends, and consider what a plain and hand over an extra check just out of pure good will. Even when he spoke of such a pointed question as "Why is it that when gas or electric rates are reduced the bills increase?" he wasn't fazed a bit. He told us the best way to get an actual arithmetical computation proved to us that the gas inspection department has done a splendid job, and the office is one of the most important and the least expensive in the whole gamut of municipal appointments. When you consider what we save by it. He said that it was no more than common sense to have the gas rates reduced. He said that the gas rates were reduced by 10 per cent, and the office is one of the most important and the least expensive in the whole gamut of municipal appointments. When you consider what we save by it. He said that it was no more than common sense to have the gas rates reduced. He said that the gas rates were reduced by 10 per cent, and the office is one of the most important and the least expensive in the whole gamut of municipal appointments. When you consider what we save by it. He said that it was no more than common sense to have the gas rates reduced. He said that the gas rates were reduced by 10 per cent, and the office is one of the most important and the least expensive in the whole gamut of municipal appointments. Titus Wad Wanted to Bean an "Empire" on Empire Day! —By Gale.

CHAMPIONSHIPS. HIGH SCHOOL TENNIS IS ON TAP FOR SATURDAY.

THE finals in the Southern California interscholastic tennis tournament will be played off at the T.M.C.A. field Saturday. The first matches will start at 9 o'clock in the morning.

The tennis played last Saturday in the elimination matches was great, but the sets in the championship finals promise to be cracking good battles. Barber and McCormick, the L.A. H.S. stars, seem certain to clean up both the doubles and singles championships between them, but a so-called "hoss" may upset calculations some. Below is a schedule of the semi-final matches in the morning. The winners will play the finals in the afternoon.

At 9 a.m.—Winnie (M. A.) versus Miss Anderson (Santa Ana).

At 10 a.m.—Miss Morse and Clover (Pasadena) versus Miss Bodey and Houch (Polytechnic); Miss Munger and McCormick (L. A.) versus Miss Shorten and Kitchie (South Pasadena); Misses Lewis and Allen (Alhambra) versus Anderson and Burns (Santa Ana).

At 11 a.m.—Miss Anderson and Barber (L. A.) versus Cornet and Clover (Pasadena); Winnie and McCabe (M. A.) versus Jones and Spears (Harvard); Misses Morse and Wetherby (Pasadena) versus Bird and McNaughton (L. A.); Miss Munger (L. A.) versus Miss Anderson (Santa Ana).

At 12 m.—Miss Burns (S. A.) versus Miss Morse (Pasadena).

STANFORD NET MEN WALLOP MAROONS. MURRAY AND HAHN CONTINUE THEIR UNBROKEN STRING OF VICTORIES.

ST. LOUIS, May 21.—Stanford University tennis team today at the Midway courts. The Palo Alto players gave the Midway fans the best net exhibition they have seen in several seasons.

Murray won from Squair in the singles, 6-3, 6-2, and Hahn annexed the laurels from MacNeal, 6-0, 6-0. The Stanford team took the doubles, 6-2, 6-4, 6-4, the Maroons rallying in decided fashion and holding the visitors even for a part of the contest. The smashing overhead cuts served by the Californians were too much for the local players.

Murray and Hahn will play the University of Wisconsin team tomorrow at Madison and will then proceed eastward to play Harvard, Yale and Amherst. They will appear in the western championship at Oxnarda.

Excitement Over Conference Games. REDLANDS, May 20.—Keenest excitement prevails over the baseball games between Whittier and Redlands, which will be played on the university grounds here Saturday. If Redlands can win this game the team will hold second place in the league.

Cities and Towns South of Tehachepi's Top—Los Angeles County News.

FLAG WAVES, WOMEN CHEER.

Pasadena Veterans Parade at Mothers' Congress.

Slate of Officers Fixed for Election Today.

High School Girls Present Fruit to Visitors.

(LOCAL CORRESPONDENCE.)
PASADENA, May 21.—The annual Congress of Mothers in convention here took a patriotic turn yesterday afternoon when a part of the second session was given over to a study of the history of the American flag and a large number of the Pasadena G. A. R. veterans attended in a body. They brought with them the Pasadena G. A. R. flag and drum corps, which played in front of the rostrum.

The women on the platform and those in the auditorium seats rose and waved their handkerchiefs as the veterans marched down the center aisle with Old Glory waving before them and many patriotic utterances were made during the course of the afternoon. The formal lecture on the flag was delivered by Mrs. Frances E. Richardson of Los Angeles.

The 200 delegates, who were busy all day yesterday at the High school where the meetings are held, concerned themselves in the morning with the report of the nominating committee. The committee announced the following nominations, and the nominees will undoubtedly be elected to office today:

Mrs. H. N. Howell, of Berkeley, for re-election as president. Mrs. W. H. Marston, Berkeley, vice-president. Mrs. Louis D. Avery, Oakland, recording secretary. Mrs. M. J. Doyle, Berkeley, corresponding secretary. Mrs. Thomas Sweeney, Berkeley, financial secretary. Mrs. C. C. Noble, Los Angeles, treasurer. Mrs. A. L. Hamilton, Pasadena, auditor. Mrs. Charles A. Hutchinson, Glendale, historian. Mrs. George B. Bird, Los Angeles, parliamentarian.

A bevy of charming High School girls distributed neat little baskets filled with fruit to the members of the congress, many of whom were busy crocheting or working at some other kind of fancy work as they listened to the address.

Last night's event was a reception and musicale at the Pasadena Presbyterian Church. The convention will close today with a number of addresses, the adoption of several resolutions and an inspection of some of the schools and kindergartens of the city.

CITY BRIEFS.
A movement for a bond issue for general municipal improvements was started yesterday by the Pasadena Realty Board. T. F. Lukens and B. O. Kendall of that organization appeared before the City Commission with the declaration that Pasadena is not progressing as rapidly as it should because of needed improvements. The suggestion was made that money be raised for such improvements and that it be gotten by a bond issue rather than by direct taxation. The support of the Realty Board of such a measure was promised. No definite sum was mentioned.

Mrs. Anna E. Durkee, secretary, treasurer and general manager of the Alaska Country Club last night by William A. Veeder, president of the First National Bank, his guests being the directors of the club. It was an elaborate affair.

Dr. Amos W. Bickford of No. 84 North Chester avenue, a resident of Pasadena for thirty-three years, died at his home yesterday at the age of

AVALON FACES DISRUPTION AS BANNING DEFIES CITY.

(LOCAL CORRESPONDENCE.)
AVALON, May 21.—A letter signed by Capt. William Banning, president of the Banning interests, to the Board of Trustees was received today, stating that after June 1 the Banning Company will not pay the head tax imposed by the city ordinance for the Wilmington Transportation Company landing passengers on their own wharf. It is forecast that litigation will be begun immediately.

The board plans to raise the head tax on the municipal wharf to 25 cents per passenger landing to get money to fight the case in the courts. The Banning Company absolutely refused to provide money to run the city as an incorporated town.

For the past twenty years the Banning Company has provided free amusements for all passengers landing at Avalon. The city's present financial status is less than \$1000 in the treasury. Disincorporation is now proposed by many property owners.

(LOCAL CORRESPONDENCE.)
OCEAN PARK, May 21.—Empire Day will be a record breaker if the present indications can count for anything. All the committees under the direction of G. W. L. Young have worked hard and fast on the details for the big day, and this afternoon the full programme was announced.

The main and opening event will be a monster street parade, which will form at the City Hall in Santa Monica at 9:30 o'clock. The big line of autos, floats and miscellaneous vehicles will be headed by the police department. Mayor T. H. Dudley, Mayor H. H. Rose, followed by American and English flag bearers, Marzales's municipal band, Chamber of Commerce officers, officers of the celebration, veterans of the Crimean and United States wars, war banners, etc.

There will be an address of welcome by Mayor Dudley, which will be followed by several speeches, and then the celebrants will enjoy the afternoon at various athletic games and amusements. There will be a big aquatic carnival will take place in the bath-house. Twenty-five cups have been put up and are now on exhibition. There will be in addition be comfortable cash prizes and extra awards for merchandise and various articles.

Already there are from two to five entries listed for each of the many athletic events which will take place on Empire Day, and the committee will soon have to close entries for the event.

It is a native of Ohio and leaves a widow and one brother. The funeral services will take place at 2:30 o'clock tomorrow afternoon at the chapel of Ives & Warren.

Make your reservations for accommodations at Coronado Tent City early. Every indication that the coming season will be the biggest and best in history of resort. Four hundred palm cottages and tent houses on the beach ready for occupancy June 1. Full information at 234 South Spring street. H. F. Norcross, agent.—[Advertisement.]

LOS ALAMITOS NOTES.

Commercial Club Gives Smoker. Bridge North of Sugar Factory to Be Reconstructed.

LOS ALAMITOS, May 21.—The Commercial Club gave a smoker Thursday evening. The forty-five members present were treated to a musical programme and luncheon. Cards and an informal reception were features.

Supervisor T. B. Talbot and a delegation of officers of Los Angeles and Orange counties good roads committees have decided to reconstruct the bridge north of the sugar factory in modern concrete style.

John P. Walter, formerly employed by the Sacramento Valley Sugar Company of Hamilton City, has arrived to be one of the assistant engineers of the Los Alamitos sugar factory in place of J. C. Cawthon, who has taken up ranching as a vocation. His wife accompanied him.

Mr. and Mrs. E. J. Benjamin of San Francisco were guests Friday and Saturday of Mr. and Mrs. E. C. Ham-

VOTERS ASKED TO LEASE SITE.

Long Beach's City Council Afraid to Act.

Prominent Citizens Sponsors for the Initiative.

Valuable Ocean Frontage Sold to Angelinos.

(LOCAL CORRESPONDENCE.)
LONG BEACH, May 21.—Their plan to lease the site of the damaged auditorium from the city to erect a \$300,000 structure having been turned down by the City Councilmen, J. C. Working, a Los Angeles capitalist, and Thomas A. Berkebile, his attorney, will appeal to the people through the initiative to be allowed to carry out their building project.

Attorney Berkebile explains that their plans entail the leasing of the site for thirty-five years to erect a pier and auditorium and other buildings, the city to be given the free use of the pier and auditorium, and the privilege of purchasing the buildings for the investment made, plus 5 per cent interest, at any time after twenty-four years. The municipality is to be given the whole structure at the end of the leasehold period.

At a meeting held last night the Councilmen, all but Beatty, turned out to oppose the plan, fearing litigation might follow the building of the structure. A dozen prominent citizens spoke for the leasing plan and, supported by them, the two men will bring it before the voters at an initiative election.

The Oxford property, east of the Pine-avenue pier and south of Ocean avenue, probably the most valuable ocean frontage in the city has been secured by the city. C. F. Van de Water, of the firm of Townsend & Van de Water, which engineered the deal, admitted the sale had been made, but refused to give the names of the purchasers or the price, as it is still in escrow.

This property is conservatively estimated to be worth \$115,000, and consists of 135 feet on Ocean avenue and 170 on Pine avenue. The Pacific Electric owned the property, having purchased it to erect there a depot, but the railroad changed its plans. It is stated that a three-story building, with a foundation capable of sustaining a twelve-story structure, will be erected on the vacant property.

GUN CLUB RANGE.

Arrangements have been completed whereby the Long Beach Gun Club, a new organization, will have a spacious range of 13,000 yards near the city. The range will be on the south side of the city, near the railroad tracks.

The values follow: Glendale Consolidated Water Company, \$69,782.66; Verdugo Springs Water Company, \$50,292; Miradero Water Company, \$24,919; Verdugo Pipe and Reservoir Company, \$14,241.

POPULATION QUADRUPLES.

(LOCAL CORRESPONDENCE.)
EL CENTRO, May 21.—The city of El Centro, according to the report of the Imperial Valley directory now in the press, shows a gain in population, since the Federal census of 1910, of 294 per cent. The 1910 census showed a gain of 216 per cent. The 1914 census shows a gain of 216 per cent. The 1918 census shows a gain of 216 per cent. The 1922 census shows a gain of 216 per cent.
